**RE: 904 (RCRA Unit 15B) Compliance Plan**

Dear Gentlemen:

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the document submitted with your September 23, 1994 correspondence (94-DOE-10061) concerning the 904 Pad Compliance Plan. The Division concurs with the date of July 31, 1995 as the date on which Rocky Flats Environmental Technology Site (RFETS) must be in compliance with all Colorado Hazardous Waste Requirements relating to the management of waste on the 904 Pad.

The 904 Pad, currently storing mixed waste in the form of pondcrete and saltcrete located in tents, is not in compliance with the requirements for interim status container storage areas, as required by 6 CCR 1007-3, Part 265. Please be advised that if the 904 Pad is not in compliance by July 31, 1995 the Division will consider its enforcement options. Further, RFETS must comply with all requirements agreed to in the September 21, 1994 correspondence.

If you have any questions regarding this matter, please contact Cathy Alstatt at (303) 692-3349 or Chris Gilbreath at (303) 692-3371.

Sincerely,

Frederick R. Dowsett, Chief  
Monitoring and Enforcement  
Hazardous Waste Control Program
